**THIRD QUARTERLY RESULTS ANNOUNCEMENT**  
**FOR THE NINE MONTHS ENDED 30 JUNE 2007**

**Characteristics of the Growth Enterprise Market (the “GEM”) of The Stock Exchange of Hong Kong Limited (the “Stock Exchange”)**

**The GEM has been established as a market designed to accommodate companies to which a high investment risk may be attached. In particular, companies may list on the GEM with neither a track record of profitability nor any obligation to forecast future profitability. Furthermore, there may be risks arising out of the emerging nature of companies listed on the GEM and the business sectors or countries in which the companies operate. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of the GEM mean that it is a market more suited to professional and other sophisticated investors.**

**Given the emerging nature of companies listed on the GEM, there is a risk that securities traded on the GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on the GEM.**

**The principal means of information dissemination on the GEM is publication on the Internet website operated by the Stock Exchange. Listed companies are not generally required to issue paid announcements in gazetted newspapers. Accordingly, prospective investors should note that they need to have access to the GEM website in order to obtain up-to-date information on the GEM-listed issuers.**

## **HIGHLIGHTS**

Revenue recorded approximately HK\$74.2 million for the Review Period.

Loss for the Review Period amounted to approximately HK\$4.3 million.

No dividend was declared for the Review Period.

## **FINANCIAL REVIEW**

During the three months ended 30 June 2007 (the “Quarterly Period”) and the nine months ended 30 June 2007 (the “Review Period”), the revenue of IIN International Limited (the “Company”) together with its subsidiaries (the “Group”) increased to approximately HK\$23.8 million and HK\$74.2 million respectively compared to approximately HK\$22.3 million and HK\$47.0 million for the corresponding periods last year, representing an increase of approximately 6.7% and 57.9% respectively. The significant increase in revenue for the Review Period was mainly attributable by transmission segment which has secured substantial orders in Shandong and Shanghai.

During the Review Period, the Group’s revenue of approximately HK\$74.2 million entirely contributed by transmission segment (corresponding period last year: approximately HK\$46.7 million, represented approximately 99% of the Group’s turnover). Due to transmission segment with lower gross profit margin is currently the main focal business of the Group and keen price competition, the Group’s gross profit margin during the Review Period decreased to approximately 13.3% from 15.6% for the corresponding period last year.

During the Review Period, the Group’s net loss attributable to equity holder of the Company was significantly narrowed down to approximately HK\$5.4 million from that of HK\$8.9 million of last year. The decrease was attributable by the increase of revenue of transmission segment during the Review Period and the continued implementation of cost control measures by the Group.

The selling and distribution costs of the Group during the Review Period was HK\$3.9 million compared to approximately HK\$4.3 million for the corresponding period last year, representing a decrease of 7% which was attributable by the continuous cost control measures taken by the Group.

During the Review Period, the Group’s administrative expenses slightly decreased 4.5% to approximately HK\$9.3 million from HK\$9.7 million for the corresponding period last year. As the Company has engaged in some fund-raising activities during the Review Period, therefore, slight decrease in administrative expenses can only be achieved.

## **BUSINESS REVIEW AND PROSPECTS**

Besides consolidating the existing transmission segment, the Group also strives to look for new business opportunities and businesses with good development potential. We aim at diversifying our business to enlarge its basis so as to increase our revenue sources. In early July 2007, the Group signed a memorandum of understanding with China Standard Limited, and proposed to acquire an environmental protection company incorporated in Shenzhen. Its major businesses includes synthetically utilisation of marsh gas, disposal and handling of solid garbage, disposal and handling of solid dangerous rejectamenta, disposal of sewage and waste water and utilisation of new energy, etc.

In addition, the Company successfully completed two placings in May 2007 and July 2007, which have placed a total of 1,325,600,000 Shares of the Company. The net proceeds from the placings of approximately HK\$148 million will be used for existing business development and working capital of the Company, thus improving the Company's financial position.
